## **Mission Statement of the Fayetteville-Lincoln County Arts Center, Inc. (FLCAC)**

The mission of the FLCAC is to enhance the quality of life in the Fayetteville-Lincoln County community through the presentation, education, and promotion of all types of art (including painting, sculpture, music, photography, crafts, dance, theater, and music). Our goal is to create cultural diversity, promote art interest, and encourage developing talent and creativity through our many programs and events.

## **Arts in the Community**

Everyone (artist or art appreciator) is encouraged to support the FLCAC and help us reach our goals. The FLCAC organization membership is open to any non-profit group whose focus is a type of art. Individuals and families can join one or more of the FLCAC member groups and benefit from member-only opportunities in those groups. The Arts Center building is available for use by any member of one of the FLCAC member groups. The use must be art-related in accordance with the FLCAC mission, and a donation to the FLCAC is requested. All funds received are either distributed to one of the designated member groups or go into the FLCAC general funds.
